Subject: Fugitive Requirements - additional decisions needed
Attachments: 60.5397a(f) and (g) reg text - monitoring frequency.docx; OOOOa compare OAR changes to repair language v2.docx; Fugitive Options -Technical Rule 020618.docx

Hi all,

Attached is a reformatted and organized list reflecting what issues still need discussion related to fugitives and which ones we have direction on at this point. I've moved the ones needing discussion to the top. Instead of having an additional meeting in the immediate term, please look through these and provide thoughts back via email. We can then hopefully nail down decisions at our meeting next Monday. I'm planning to engage with OECA as well but wanted to get this out separately to you all first.

Also attached are the changes to the monitoring frequency and repairs reg text. OECA has been working with me on repairs but has not yet seen the monitoring frequency edits. I will share those with them shortly as well.

Thanks everyone for the input today.

Karen
